Construction Managers - General Contractors

Re: Curtiss Woodworking

August 8, 2011

To Whom It May Concern,

Milestone Construction Services, LLC is pleased to submit this letter of reference for Curtiss Woodworking. I don't often write letters of recommendation because I don't take the responsibility lightly, but in this case I feel the letter is well deserved and I have no reservations in making this recommendation.

From 1996 to 2009 I was employed by Yale University, where I was in charge of project group that worked on projects ranging from \$25,000 to \$1,000,000.00 in cost. During this time I had the opportunity of working with many Woodworking Companies, including Curtiss Woodworking. In my capacity at Yale University I was always impressed in how Curtiss Woodworking handled a project; from pre-design to construction closeout they were responsive to everyone's needs.

I recently left Yale University to start a Construction Management Company and had a need to hire a Millwork company for a very detailed and fast tracked project. Based on my past experience I decided to contact Curtiss Woodworking to see if they would be interested in the project and to my pleasure they were.

I had some reservations at first and was concerned that the responsiveness I had witnessed prior to starting my company might not be the same if the work wasn't related to large institution like Yale University. I must say my concerns were unfounded, not only did I get the same treatment I was able to see firsthand how Curtiss Woodworking responded to a very difficult project with a limited budget and a diverse group of end users. Curtiss Woodworking worked on several different solutions regarding the design keeping the project schedule and budget requirements that were established in mind while offering some alternatives that fit into the buildings décor. There wasn't a time when an email or voice message was not responded to in a timely manner, nor was a meeting ever missed, which in my mind was key in getting the project completed on time and within budget.

Based upon my experience I can recommend Curtiss Woodworking without hesitation. I can be contacted at 203-691-6876 for any further required information.

Very Truly Yours,
